## SYNTHETIC PANEL FILTER

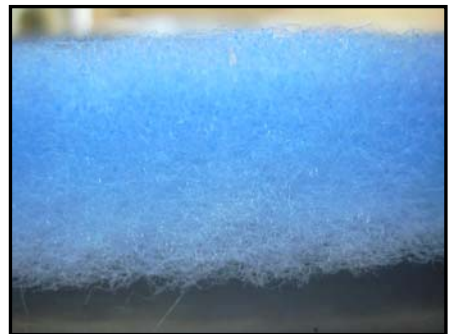

A general use economic low grade disposable filter. Designed for use in similar applications to the glass fibre panel, the synthetic panel is an ideal where glass fibre is unacceptable such as food preparation. As with the glass fibre and pleated range, it can be used alone or as a pre-filter to higher efficiency filtration. As well as being economical, the lofted polyester media has excellent dust holding capacity, is non-toxic and self-extinguishing.

Construction	750 – 1100 micron card frame, plain lined or water resistant. Open lattice face
Media the outer frame	Graduated polyester (EU3/4 rating), bonded to
Combination	With a final layer of 6mm carbon-impregnated media for the removal of odours
Optional extras	Steel strengthening bars, paper tape finish

In a vast range of standard sizes. Custom sizes to order.

Technical specification available
